Welcome to our office!

Your dentist has referred you to an endodontist. An endodontist is a dental specialist who has additional education and training in root canal therapy and other procedures involving the dental pulp. As a specialty practice, we are dedicated exclusively to providing state-of-the-art, comprehensive patient care in non-surgical and surgical endodontics.

Since our practice is limited to pulp-related procedures, you will need to return to your family dentist for the final restoration of the tooth. Your dentist will then continue to oversee your dental care including regular check-ups and cleanings.

Please advise our office if you have any special needs when you make your appointment. We realize that your time is valuable. Our office is dedicated to keeping you comfortable during and after treatment, honoring your appointment time and providing you with a clean and cheerful environment where strict infection control procedures are followed. We look forward to serving you.
